

## Angel Redeemed Book Summary:

Deputy US Marshal Devin Nicholson has spent two years consumed by one mission: tracking down the fugitive who destroyed her life. But when a mysterious stranger appears in her bedroom claiming to be her immortal protector, her carefully controlled world shatters. Marco insists they're soulmates bound across lifetimes, that supernatural forces are hunting her, and that she holds the key to an ancient relic that could change everything. Devin doesn't believe in fate, angels, or second chances—until demons attack and the impossible becomes her new reality.

Marco has searched for his Nephesh Ohra across five lifetimes, watching her die again and again. This time, he's determined things will be different. But Devin's memories are locked away, dangerous Rogue Watchers will stop at nothing to claim the Eye of Osiris first, and the woman he loves has built walls even his immortal patience struggles to breach. With only days to help her remember their past and complete an ancient ritual, Marco must convince Devin to trust him and to risk everything for a love that transcends death itself.

As enemies close in and time runs out, Devin faces an impossible choice: cling to her carefully guarded independence or embrace a destiny that could either grant her eternity with her soulmate or destroy them both. In a race against Rogue Watchers, demonic forces, and her own resistance to vulnerability, she'll discover that some bonds are stronger than death—and some loves are worth dying for.
